

Flexible Metal Processing Line (High Degree of Automation and Flexibility)

TOP Series

Max thickness of sheet coil: 3mm

Working area: 3000*1500mm

- ✓ One-stop completion of sheet coil feeding, leveling, cutting, unloading, bending, welding and stacking up
- ✓ Several sets of industrial robots to free your hands because of high degree of automation
- ✓ Flexible production and respond to production changes at any time
- ✓ Built-in safety monitoring devices for real-time control
- ✓ Provide nesting software/filming/ink jetting/safety fence as optional accessories

Main Parameters	SF1503CH RC3000W
Max Size of Sheet Coil (L*W*T, mm)	3000*1500*3
Max Outer Diameter of Sheet Coil (mm)	1400
Max Inner Diameter of Sheet Coil (mm)	508
Max Weight of Sheet Coil (kg)	10,000
Leveling Accuracy (mm ²)	±1.5
X/Y-axis Positioning Accuracy (mm)	±0.05
X/Y-axis Repositioning Accuracy (mm)	±0.02
Max Feeding Speed (m/min)	10
Power	Three-phase 380V, 50Hz/60Hz (custom-made)
